

# Visual Supports for Lola Goes to Work a Nine to Five Therapy Dog by Marcia Goldman

Use these visual supports with non-verbal children and children who are learning to talk.

Use these icons before and after reading Lola Goes to Work, a  
Nine to Five Therapy Dog.

Before reading the book make sure that the child(ren) are told the sequence of events so they know what behavior is expected. Go over the five icons above. Ask the child(ren) to tell you what comes next if they can. Repeat the sequence after reading the book.

Ask questions while reading the book. For children who are working on pointing ask them to point to the icon that answers the question. For children who are beginning to talk ask them to say the word. If they can approximate the beginning sound of the word, praise them for that effort. For children who can approximate the sound of the word ask them to articulate the whole word.

Use these icons while reading Lola Goes to Work, a Nine to Five Therapy Dog:

Big

Book

Dog

Friends

Happy

Home

Kiss

Kind

Little

Read

School

Sleep
